Phase1 : Group 38 TUTO

✅ : will finish

❌ : will finish if time permits

Requirements and specifications:

Home page (6):

✅ Home page will have 4 main tabs at the top; Home, profile, posts, search post, contact

✅ Home page will be populated with postings of "good tutors'" who were highly rated

❌ Home page might contain some tutor with "sponsorship".

❌ Home page will list the class you are going to have or teach.

❌ Home page will contain destination for you class.

❌ Friends' news: friends can share their requests any other tutoring-related posts.

Registration and Login (8):

❌ Register with email.

✅ Clients are required to register with some of their personal information for the web to do the recommandation.

✅ Data validator for the registration input.

❌ Account will be activated upon the verification of email address.

❌ Log in with facebook/google account

❌ Clients can verify their phone number and use it as login username.

❌ Two step verification for login.

❌ Security questions for password rescue.

Profiles (12):

✅ Profile page for each client. (same format)

✅ User's profile includes name, contact info, academic background, brief description of the client, etc. Each single item can be made public or private seperately.

❌ Option to import Linkedin profiles.

✅ Profile editable by the user, except the user's name.

❌ Clients can be friend with other clients.

❌ Add friends through email contacts.

❌ Tutor recommendation to friends.

❌ Clients can share posts on the profile page.

❌ A message board on the profile page. Clients can leave messages on other clients' profile page.

❌ Tutors will have the subjects they tutored on the profile page along with students' feedback.

✅ Tutors can upload their qualifications and awards into their profile.

✅ Tutors' qualifications can be used when applying for a tutor position.

Post Form (the page to post a request) & Post detail page (the page to view a request) (11):

✅ (Post form only)Define tutor or tutee, field to be tutored.

❌ Poster's contact information can be chosen to be public or private.

✅ Post may include the client's available schedule and preferred place.

✅ Post may include the client's desired hourly pay

❌ (Post detail page only)Negotiation option for the hourly pay

✅ Tutor's post only: academic background and experience

✅ Poster's additional message

✅ Duplicate posts are not allowed

❌ Report button for inappropriate posts

❌ Post will expire in a month and will not be viewable or searchable after.

❌ Extension option?

Requesting policy (5):
(Phase 4 implementation)
✅ Once clients found a post they like, they can send a request to the client who post the post

✅ After the client accept the request, two clients will receive each other's contact information

❌ Or a messaging system may be built so the two clients can communicate

✅ Clients can only send a request for a post once

✅ Once a client has chosen a tutor/tutee, he/she will close the post and then a notification will be sent to the ones who have requested but not chosen

Searching page (9):
✅ Display search result for Posts in default
(Phase 4 implementation)
✅ Recommendations based on user's profile will appear first, before the search result (options to turn off recommendation)

✅ Clients can rate the recommendation to improve the recommendation service

✅ Switch the order search result between post and user using the top line of Filtering tools

☑ Up to 40 posts/Users per page (or users can choose the maximum items to be listed)

☑ Filtering tool will be at the top so clients can filter posts

☑ Page index will be at both top and bottom of the page

☑ Clients may sort searched posts using filter

✘ Advanced search tool (just like career center's advanced search tool)

Feedback/Rating policy (4):

(Phase 4 implementation)

☑ After tutoring, student can provide a rating and/or a feedback.

☑ Ratings will be done anonymously.

☑ Ratings will be shown to no one but will be used for tutor recommendation (tutors with good rating may be prioritized when potential tutees search for a tutor)

✘ Feedback will be sent to the tutor and server, to improve the match algorithm.

Administration page (4):

☑ Administrators can view all the posts and decide whether or not delete them.

✘ Post that been reported inappropriate will be highlighted on the Top of the list sort by the time.

✘ Administrators can view the list of clients that reported the post for each post.

✘ Administrators can view the list of clients that had most number of reports in total.

Contact (1):

☑ Contact information for website organizers on the footer of each page
